Purposeful Journeys by MCE

Budget Worksheet

We make every effort to create journeys that are as all-inclusive as possible. We believe that nothing can spoil a travel experience like the feeling that costs were hidden or undisclosed. As in all travel and dining experiences, there will be some incidental costs. For example, souvenirs and adult beverages are not included in the cost of your journey. Remember that your calculated costs are an estimate. For your convenience and planning, we offer this worksheet to help you calculate an estimate of the total cost of your journey.
